BIC: hard targets
BIC: in-sample scores (no LOO)
BIC: default grid
BIC: 5 EM iterations
BIC: penalty x0.5
BIC: penalty x2
Symmetric T only (1-param gate)
LOO-EM v1 (full T, 1-param gate)
v1 without gate (full T always)
No noise model (LOO self-training)
LOO relabel (1 round)
LOO relabel (iterated)
LOO remove
